Treatment of Gummy Smile: Esthetic Crown Lengthening and Surgical Lip Repositioning

Dr. Basaam M. Kinaia, DDS, MS, DICOI

Thursday, March 15, 2018

Abstract

Is your patient complaining of short teeth? Is your patient unhappy about having a gummy smile? This is a 2-hour presentation aimed at explaining reasons for gummy smile and how to select appropriate treatment options for. Emphasis on periodontal esthetic analysis are discussed to obtain a natural smile with healthy gingival tissues. A practical approach at using evidence-based dentistry is applied to discuss specific periodontal parameters as they relate to the esthetic facial and dental analyses for predictable smile design. Various types of periodontal surgery are covered including, gingivectomy, esthetic crown lengthening, and lip repositioning surgery using practical clinical examples. These treatment options will be discussed regarding their advantages, side effects, and success rates.

Objectives

- Analyze the esthetic smile from a periodontal perspective.
- List treatment options for short clinical crowns and altered passive eruption
- Evaluate hypermobile upper lip and list treatments for gummy smile

Dr. Kinaia is a Diplomate of the American Academy of Periodontology (AAP) and the International Congress of Oral Implantology (ICOI). He obtained his DDS degree in 1999 from the University of Detroit Mercy School of Dentistry in Detroit, Michigan. He later completed his Master of Science (MS) and Certificate of Advanced Graduate Studies (CAGS) in Periodontology at the University of Detroit Mercy School of Dentistry and St. John Hospital Health System in Michigan.

Dr. Kinaia is a member of numerous professional societies and has numerous journal publications, chapter books and research in the fields of Periodontology and Dental Implants. He is a clinician with over 20 years of private practice experience and is an academician where he lectures nationally in the United States and Internationally.

Dr. Kinaia is the Director of Post Graduate Periodontology Program at the University of Detroit Mercy in Michigan. He has obtained a certificate of Excellence from the American Academy of Periodontology in recognition of his teaching and research fellowship. He maintains a position in Private Practice in Sterling Heights, MI.
